Sprint 2 Report
Social Shopper

KMS Inc.: Axel Garcia, Omar Quinones, Ralph Brekan, Alan Vasilkovsky, Sean Anderson
11/3/19

Actions to stop doing:
- Not googling issues that are being encountered.
- Stop doing more than a task entails. (i.e doing other tasks)
- Switching the meeting times for the group meetings.
- Waiting until the weekend to start working on the tasks.

Actions to start doing:
- Stick to your lane. (Do only what your task asks you to do)
- Show up to meetings on time. (3PM Tuesdays, Thursdays, Saturdays)
- Attend workshops.
- Google issues that are being encountered.
- Allocate time appropriately; allocate some time for this class.
- Checking email and seeing that a pull request is available
- Reply to people on discord
- Be more proactive on completing tasks
- When a pull request is up, someone has to go and test it and try to break the new feature. If it doesn't break, approve the pull request and leave it for the programmer of that feature to finish the pull request.
- Look on the Scrum Board for tasks, Scrum board should be most up to date.
- Create a hierarchy of tasks
- Better Descriptions of tasks

Actions to keep doing:
- Keeping Github up to date
- Messaging on discord when a pull request is up
- Having others review the pull requests.

Work Completed/Not Completed:
- Completed: 17 Tasks
  - User Sign up page
  - List creation page
  - Linking the lists displayed to the database.
  - Calculate the totals on all of the lists
  - Setting a budget on the individual lists
  - Adding items to a list and saving item to database
  - Removing Items from a list
  - Deleting a list on app and on database
- Not Completed: 3 Tasks
  - Web Scraping
  - Profile page details. Not completed because of API issues, but was worked on. (name, photo, etc.)

Work Completion Rate:

- 0.85
